At *Peaks Paper Chase, Inc. and Wolf Den Scanning, Inc.* we are proud of our high speed digital printing, and we set up all your work just the way you want it. Everything we do is **CUSTOM** to your specifications. We provide you with a proof, and will make any changes needed before we print.

There are 4 ways to get your work to us:

1. Mail
2. Brought in on disk
3. Bring it in & we'll discuss your project
4. Send electronically in any of the following:

Microsoft Publisher 2003, Microsoft Word 2003, Excel, Powerpoint, Quark Express 4.0, 5.0, 6.0 & 6.5, Adobe Photoshop, Adobe Reader, Corel Draw 12, AutoCad 2009, ArcGis 9.3, tif, jpg, eps, PDF files.

**PLEASE NOTE:**

It is very common these days for people to bring us work that has been designed at home or in an office and saved to a CD, floppy disk or zip drive. While we are pleased to print these projects, we often run into the following problems:

1. We do not have the same font (type style) that is on the disk, and the creator of the project has not included it with the file;
2. We cannot match the color proof that is brought in with the disk, since our printer has an entirely different color output;
3. **VERY IMPORTANT:** If your project was created by a designer and is copyrighted, we **CANNOT LEGALLY** make any changes or corrections to it; if changes need to be made, you **MUST** take it back to your designer.

*When these concerns have been addressed, we will be pleased to print your project.*
